This celebration is the primary fundraising effort for JA of Tyler. It allows the organization to continue offering real-world knowledge and skills young people need to own their economic success, plan for their future, and make smart academic and economic choices. In the last decade, more than 58,000 students in local K-12 grade classrooms have been taught JA programs by over 2,000 community-leader volunteers.

This event will include a live action in honor of Herb Buie. Please join us on April 9, as we celebrate and honor our 2026 laureate.
